

Completing Umpire Reports on Play Cricket

(Updated December 2021)

Each time you wish to complete a report, you will need to Login (again, near the top right-hand corner). Having done that, you will see this screen and need to click on the icon to the left of My Network, as shown:

When you click on this, you will see an option called Umpire Reports, and when you click on that you will see the matches for which reports are still to be completed (something like this). Just click on Fair Play as shown below.

They will disappear from this page once they have been completed.

All the information that is needed is contained in the one report. It only needs to be completed by one umpire. All the responses are contained in drop down boxes and just need selecting.

- Agree which umpire is going to submit the report at the end of the match and ensure that he has the details
- Must be submitted by 10.00pm Wednesday after the match (Friday for BHM matches)
- If neither umpire has website access, telephone Rob Smith with all details
- Not required for Cup Matches

Don't forget to press SAVE when you have finished.
